## MEMORANDUM

**Date:** 5 May 2025

**To:** Presidents, University System of Georgia

**From:** Alan Travis, Associate Vice Chancellor, Planning and Management

**Re:** **FY 2026 Major Repair and Rehabilitation (MRR) Funding Request**

Major Repair and Rehabilitation (MRR) funding supports critical capital renewal of USG facilities to ensure safe and functionally effective campus environments. Wise and expedient expenditure of this money demonstrates its importance to our mission.

It is again time for the USG's annual request for institutions to identify their MRR needs in state-owned resident instruction space and associated infrastructure. The prioritized project request should reflect approximately 3 years of needed investment to inform project review and future MRR requests. Since priorities can change over the course of a year, outyear project information will be eligible for update during next year's FY 2027 MRR cycle.

Tools and instructions for submitting your FY 2026 MRR request will be emailed to your Chief Business and Facilities Officers. Please note that the USG's [MRR Program Procedures and Guidelines](#) are currently being revised to reflect updated cash management and accounting practices.

**MRR requests are due by Friday 6 June 2025.** It is important that requests be submitted on time for the presentation of the FY 2026 MRR recommendation to the Board of Regents on 12 August 2025.

The Real Estate and Facilities staff is available to assist with the development and refinement of your FY 2026 MRR request. Please let us know how we can best help you.
